Message from Trustee

Dear Stakeholders,

Today I am delighted to share that we are reflecting on the journey of Ramky Foundation and its unwavering commitment in nurturing a culture of care for every individual, community and the entire planet. As we are traversing through stimulating times, our dedication to give back to the society remains unchanged.

At this outset, I take immense pride in our passionate crew which is deeply rooted in connecting to ground reality. Together, we are striving for empowering every individual to become a better citizen and driving the progress in the prosperity of the nation as a whole. We have moved from short-term interventions to more sustainable, long-term initiatives. These efforts are designed to create a greater impact, not merely to the direct recipients but it has extended impact on their families and the entire community. We have also added new professionals to our team to bring in more expertise to sustain these projects.

In addition, over the preceding year, we have successfully established key partnerships with the prominent organizations such as the SBI Foundation and the Centre for Environment Education. These collaborations have strengthened our ability to address the pressing community needs and expand the reach of our programs, resulted in making a more meaningful difference in the lives of those we serve. I would also like to extend my heartfelt thanks to the entire Ramky Foundation team for their dedication, passion and hard work in making this transformation possible.

A. Dakshayani
Managing Trustee,
Ramky Foundation

From the President’s Desk

Dear Friends and Colleagues,

It gives me great pride and joy to present Ramky Foundation's Annual Report for the fiscal year 2023-24. Our Foundation’s efforts have transcended boundaries, extending our impact across 16 states and 1 UT.

We have demonstrated steadfast commitment to CSR initiatives, focusing on several critical areas such as environmental sustainability, community welfare, and education. Despite challenges posed by economic fluctuations and logistical constraints, Ramky Foundation persevered in implementing impactful projects aimed at fostering a better society. Challenges included navigating regulatory landscapes, ensuring sustainable funding, and adapting to evolving community needs amidst global uncertainties.

Looking ahead, we remain hopeful and determined to expand our footprint in CSR, aspiring to deepen our impact through innovative solutions and strategic partnerships. Our vision is to nurture a society where environmental stewardship, social equity, and economic prosperity converge harmoniously. By leveraging our expertise and collaborative approach, we aim to empower more communities, promote inclusive growth, and inspire sustainable development practices for a brighter future.

I extend my heartfelt thanks to our dedicated team, esteemed partners and steadfast stakeholders for your continued support and commitment to our shared vision. It is through our collective efforts that we continue to pave the way for sustainable development and a more resilient tomorrow.

Warm regards,
MV Rami Reddy
President, Ramky Foundation

About Us

Ramky Foundation,registeredundertheTrust Act of Andhra Pradesh (Reg. No. 412/06-IV), hasbeen diligentlyworkingtowardssustainable community development since 2006. Our mission is woventhroughsixfundamentalareas: Natural Resource Management, Women Empowerment, Health, Education,Skill Development, and Rural Development.

Our Natural Resource Management initiative champions tree plantation, plastic waste management, organic farming, extending our outreach to assist primitive and vulnerable tribes and focusing on judicious water resource management. We are dedicated to nurturing the land and its keepers, recognizing the intrinsic value of harmonious natural practices.

In the realm of Skill Development, we are committed to shaping the future by training youth in diverse job roles, providing them with the competencies needed to thrive in today's competitive market. This effort not only equips individuals with practical skills but also bolsters the economy by preparing a capable workforce.

Healthcare is delivered through innovative channels like setting up RO water plants, improving sanitation facilities in schools, mobile health vans and medical camps, ensuring medical services reach the farthest corners. We also facilitate life-changing free cleft lip surgeries, transforming lives and nurturing hope within communities.

Women Empowerment is being facilitated through programs such as skill development, supporting women entrepreneurship, financial literacy programs, establishing Mutually Aided Cooperative Societies and Self-Help Groups. These are crucial steps towards fostering income generation, gender equality and economic growth.

Our comprehensive education initiatives have been crafted to forge paths of opportunity and enlightenment for young minds across India. Our ISHA (Integrated Schooling and Holistic Approach) program supports the construction of Anganwadi centers, providing scholarship support, educational materials etc. One unique initiative taken up last year was the adult literacy program which changed the lives of adults who never got a chance to pursue education in their young age due to socio-economic factors.

Under Rural Development we aim to foster community development through a robust portfolio of initiatives aimed at improving infrastructure, cultural enrichment, education, and disaster relief. We enhance community life by constructing essential facilities such as community halls and public toilets, and installing solar street lighting, which collectively serve thousands of residents.

We continue to build on our trusted relationships with government and non-government agencies, leveraging additional resources to magnify our reach. Our ethical governance is reflected in our 12A & 80G certifications, a testament to our transparent and principled operations.

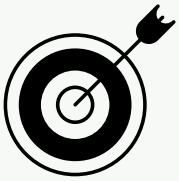

Vision, Mission and Values

VISION

Towork in the areasof Women Empowerment, Education, Skill Development, Health, Natural Resource Management and Rural Development through sustainable models.

MISSION

RamkyFoundationenvisions being a model organization with a focus on equitable, sustainable, and accessible development opportunities for the communities we serve.

VALUES

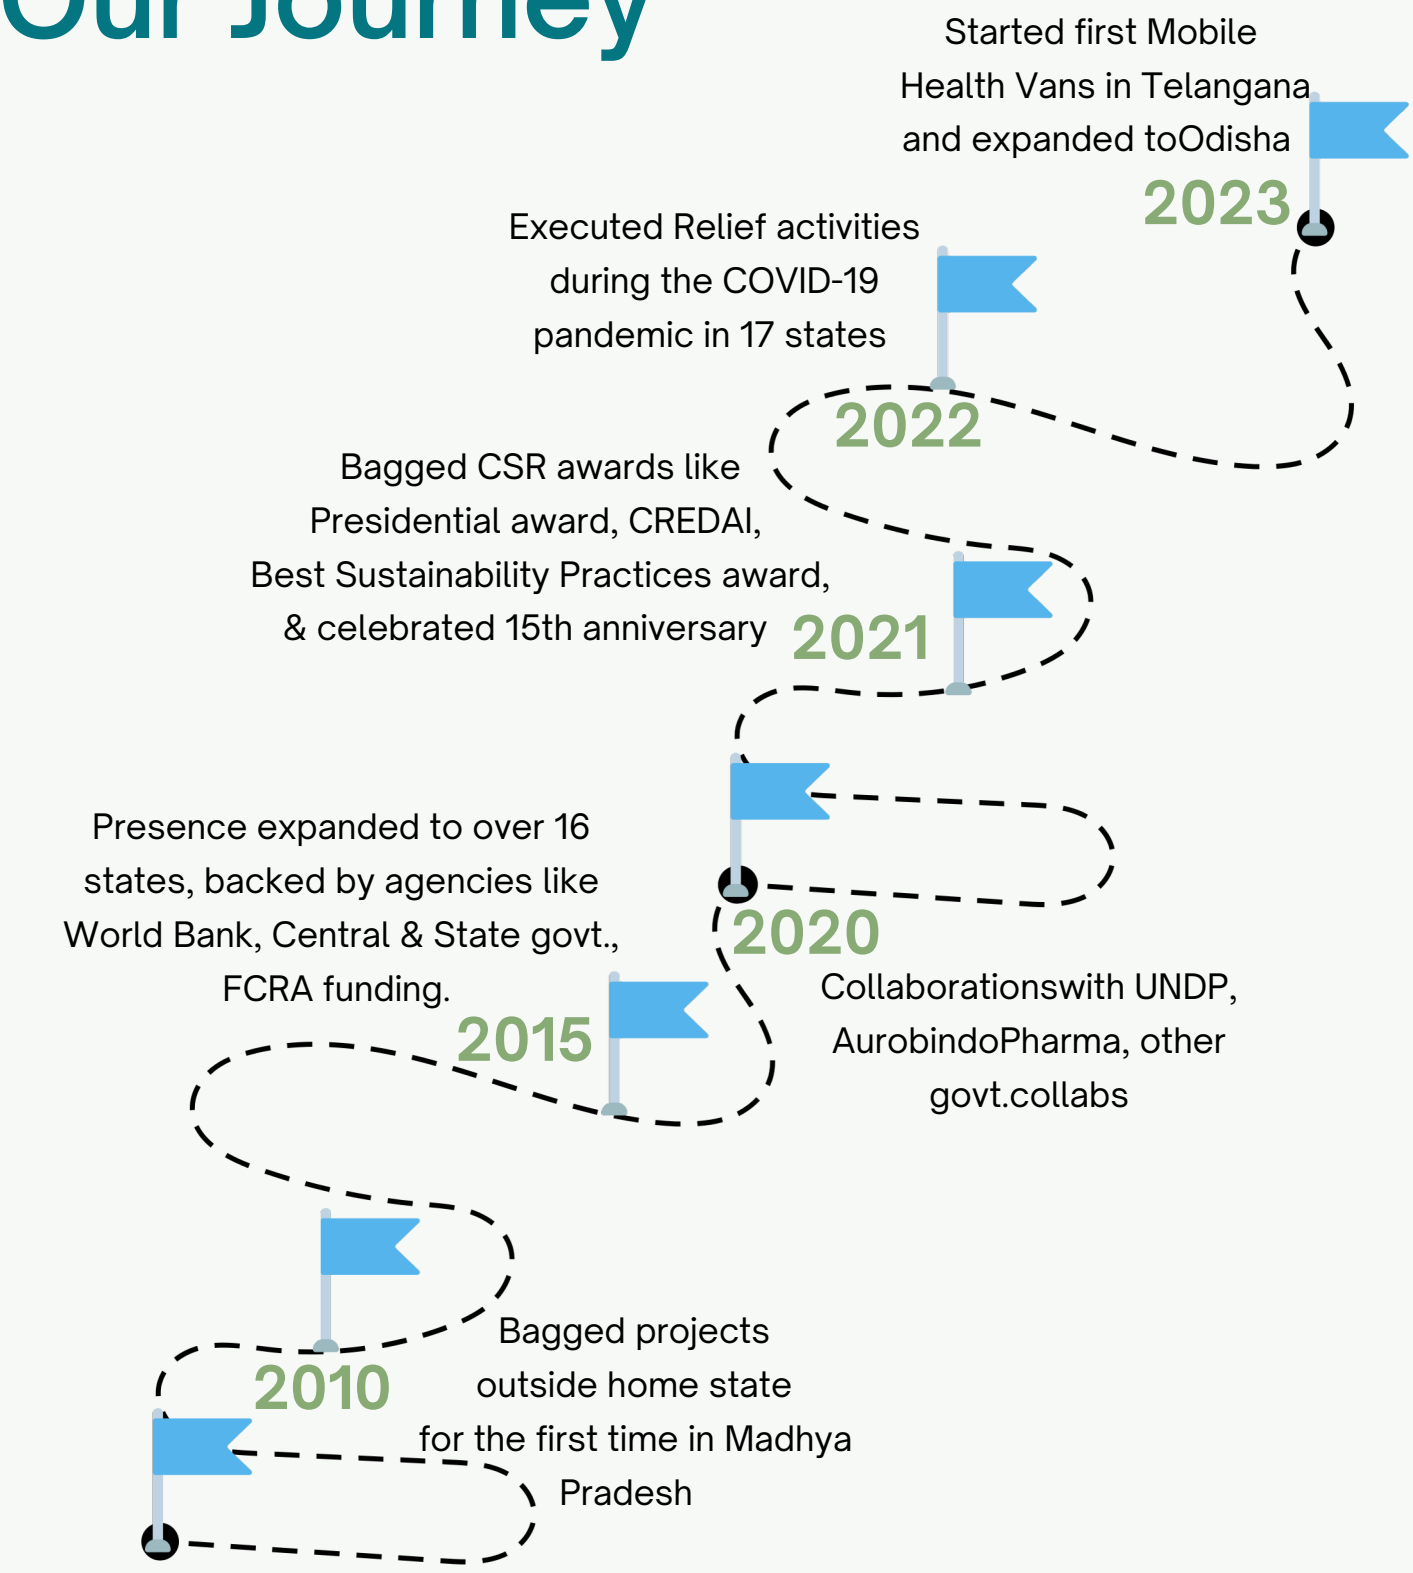

- Honesty & Integrity
- Quality improvement
- Individual & Organizational Learning
- Transparency and Accountability
- Service beyond Self
- Commitment to serve the needy
- Teamwork
- Social Innovation

RAMKY FOUNDATION'S SDGs CONTRIBUTION

Milestones in Our Journey

CSR PROJECTS

Natural Resource Management

NATURAL RESOURCE MANAGEMENT

The Foundation has embarked on an ambitious series of Natural Resource Managemen initiatives aimed at fostering sustainable development and empowering local communities Initiatives include creating livelihood opportunities for fishermen through skill development and support programs. They also promote organic, chemical-free farming practices to ensure environmental sustainability and improve agricultural yields. The plantation of saplings in large scale has been undertaken to enhance the green cover and combat adversarial climate change effects.

Additionally, the foundation focuses on water conservation measures by constructing check dams and distributing IoT-enabled pump sets to ensure the effective usage of water in agriculture. The establishment of an agricultural tool bank further supports farmers in adopting sustainable farming techniques. Through these diverse efforts, Ramky Foundation is iscommitted for preserving natural resources besides promoting economic resilience and enhancing the quality of life in rural areas.

2,310

Enhancing Livelihoods Through Sustainable Practices, while Safeguarding the Environment

250 fishermen got livelihood by receiving Fish fingerlings, Feed, Boats & TVS Mopeds

Kondakarla Ava Fisheries Project

Conventionally, the fishermen at Kondakarla Lake encountered with multiple difficulties that hindered their fishing ability and livelihood. They were dependent on external fish seed suppliers from the East and West Godavari districts that led to massive transportation costs and significant fish seed mortality during transit. in this process the fishermen incurred the financial losses besides diminished productivity. The situation further aggravated due to lack of technical expertise and resources to adopt effective fishery practices, which pushed them into abject poverty.

Marketing posed another major challenge, as inadequate infrastructure for storing and transporting their catch squeezed their ability to compete with the larger market ecosystem. This issue, combined with financial instability has made the fishermen to get trapped in the vicious cycle of livelihood rather than invest in obtaining better equipment, expand their operations, or improve their practices.

In response to these challenges, RAMKY Foundation has launched a multi-faceted project aimed at improving the livelihoods of the Kondakarla lake fishermen. In order to address the dependency on external fish seed sources, RAMKY has established a local fish seed nursery, ensuring a steady and high-quality supply of fish seeds beside reducing the losses incurred by fishermen on account of transportation-related mortality of fish seeds.

To enhance marketing capabilities, the foundation provided fishermen with 15 TVS Mopeds and ice boxes, enabling them to transport their catch more efficiently while preserving its quality, thereby expanding their market reach and profitability. Ramky has trained fishermen by engaging experts from the Fisheries Department and equipping them with the technical knowledge and skills needed to adopt sustainable and productive fishery practices.

In addition, 4 new boats were provided to facilitate fishing activities and promote eco-tourism on the lake, creating an additional income source for the community. These comprehensive and tailor-made interventions significantly improved the financial stability of the fishermen, empowering them to invest in their future and improved their overall quality of life.

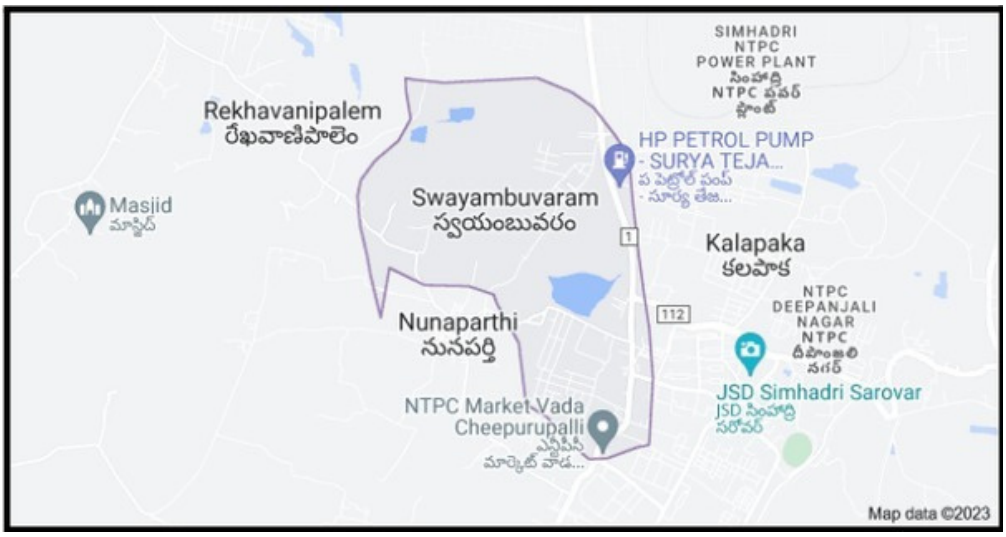

Environment Friendly Organic Farming Practices

Ramky Foundation, for the past three years, has been spearheading a project to promote organic paddy cultivation in Swayambhuvaram village, Andhra Pradesh.

Objectives of this Project:

1. Reduce the application of chemicals in the crop fields.
2. Cost-effective cultivation
3. Maintaining a healthy ecosystem between crop, soil, beneficial microbial population and humans.

The project was commenced in the year 2021-22. Initially started with 30 farmers and in the next year (2022-23) engaged 63 farmers. And in the third year (2023-24) engaged 60 farmers.

My name is Sara Sanyasi Rao, and I am 45 years old. I have been involved in the organic paddy project run by Ramky Foundation for the past three years. Despite my efforts, I have found it challenging to sustain my farming. To support my family, we often take on labor work in neighboring countries. Thankfully, Ramky Foundation has provided us free organic fertilizers and guidance on how to use them effectively, allowing us to farm with less investment.

This year, I recognized a market demand for black rice and decided to plant it on half an acre of land. The reduced investment over the past three years, thanks to the free fertilizers, has enabled me to experiment with cultivating this black rice. While there is limited local marketing for it, I have relatives in Hyderabad who can help. If this venture proves successful, I plan to rent additional land from other farmers next year to expand my black rice cultivation. Initially, I had doubts about the viability of farming due to labor costs and investment, but now I feel encouraged by the progress we've made.

Women Empowerment

Ramky Foundation has undertaken several key initiatives to empower women through livelihood generation, micro-enterprise setup, capacity-building programs, and skills training. Technical skill trainings, digital and financial literacy programs, marketing training etc. play a vital role in promoting gender equality and empowering women economically and socially. Continued investment and support to such initiatives is essential to build on the achievements and create lasting positive impacts on women's lives and communities.

760

Increased Awareness, Empowerment and Improved Social Capital for Women

150+

Women given training in waste management processes

Women's Day Celebrations

International Women's Day was celebrated with great fervor and recognition at the 'Ramky Empowering Women Awards' event, organized by Ramky Foundation at Visakha Pharma City, Vizag. The event was graced by the presence of the Managing Director of Kalavati Hospital, as the chief guest. The awards ceremony highlighted the remarkable achievements and contributions of women across various fields, inspiring all attendees with stories of resilience, leadership, and empowerment. It was a covenant to the ongoing efforts towards gender equality and the celebration of women's accomplishments worldwide.

Enhancing Hygiene for Girls at Vizag Observation Home

Before renovation

Recognizing the urgent need for improved sanitation facilities, Ramky Foundation undertook the renovation of 15 toilets (6 restrooms and 9 bathrooms) at the Government Special Cum Children and Observation Home for Girls. This initiative addresses the serious health risks faced by the girls due to the poor state of the restrooms. The renovations emphasize hygiene and safety, crucial for the overall well-being of the students.

Key additions include a 2000-litre water storage tank ensuring adequate water supply, a new wash basin for hand and plate washing, and a footpath leading to the restrooms. This renovation project significantly improves the health standards and overall ecosystem for the 84 girls residing at the home

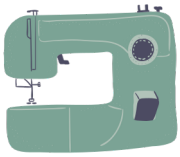

After renovation

Tailoring for Self-Reliance

Ramky Foundation has conducted skill development courses in tailoring for 284 women in Maharashtra and Hyderabad at both basic and advanced levels. By equipping women with essential tailoring skills, we have created an opportunity for sustainable income opportunities for the community to be more resilient. As the centers continue to grow and flourish, they stand as testaments of skill development in driving emancipatory measures and empowerment. We also distributed sewing machines to the needy.

Upgrading Farming

In Visakhapatnam, women were given 100 millet making machines to cleansing their produce efficiency. Millet cleaning machines streamline the process of separating impurities like dust, dirt, and debris from the grains. This saves farmers considerable time and effort as compared to the to the conventional manual interventions . This will also enhance productivity, quality, reduced costs, and fosters technology adoption in agriculture. These benefits not only improve the economic outcomes for farmers but also contribute to the sustainability of millet production.

Vennela Rural Mart

Vennela Rural Mart (VRM) is a social enterprise, an initiative of Ramky Foundation that came into being in October 2011 at Narasaraopet, Guntur district with a initial grant from NABARD and later continuing with CSR support from Ramky Foundation, under which an outlet was established to provide services like sale of stitching material, stitching of sportswear garments, blouses, etc by rural women.

- In the year 2023_24, VRM Received ₹21.40 lakhs worth of work order from schools and Institutions.
- In 2023_24, VRM women earned ₹2.34 lakhs profit.
- At present 15 women are getting employment directly and 5 are getting employment indirectly from VRM society.
- In 2023_24, VRM received 145 work orders from various individuals and companies.

Adarsha Mutually Aided Cooperative Society

Sri Adarsha Mutually Aided Cooperative Society (MACS) was promoted by Ramky Foundation in September 2010 for the women of affected and displaced villages of Visakha Pharma city (VPCL) in Vizag. The mission was to achieve socio- economic empowerment by promoting sustainable livelihoods through skill enhancement, providing credit linkages and access to welfare schemes. Adarsha MACS started with a capital of INR 2,80,000 given by Ramky Foundation and today it proudly supports 1,200 women shareholders, with a combined share capital amounting to INR 1,83,500.

Income Generation Activities taken up by Adarsha MACS:

- Apparel Unit
- Phenol, detergent powder, toilet cleaner making unit
- Mobile departmental stores in the Pharmacity Area
- Maintenance of RO plants
- Dairying and other petty businesses, etc.
- Green belt development in VPCL premises

Education

Ramky Foundation's various initiatives in education have played a crucial role in fostering societal development and individual empowerment. Focusing on projects such as infrastructure enhancement in schools, improving sanitation facilities, providing clean water, provision of digital resources like computer labs and projectors, scholarships for underprivileged students and personality development classes, has ensured equitable access to quality education. Such initiatives not only improve academic outcomes but also cultivate essential skills like digital literacy and critical thinking, preparing individuals to thrive in a rapidly evolving world.

They underscore the significance of education as a fundamental human right and a cornerstoneofsustainable development, driving progress and opportunity for future generations.

15,128

Empowering Individuals and Communities through Knowledge, Skills, and Access to Essential Facilities

Promoting quality education in **50+** schools

EDUCATION

ISHA - Integrated Schooling and Holistic Approach

Ramky Foundation has initiated its flagship project '**ISHA - Integrated Schooling and Holistic Approach'** to transform Govt Schools. Enormous efforts have been put into enhancing infrastructure in government schools and Anganwadis. Projects encompass the construction of essential facilities such as compound walls for security and libraries to promote a reading culture amongst students. Technological advancements are also prioritized, with provisions like projectors and computer labs promoting digital literacy and interactive learning experiences. Digital screens facilitate educational content dissemination and school uniforms have also been distributed to 250 students.

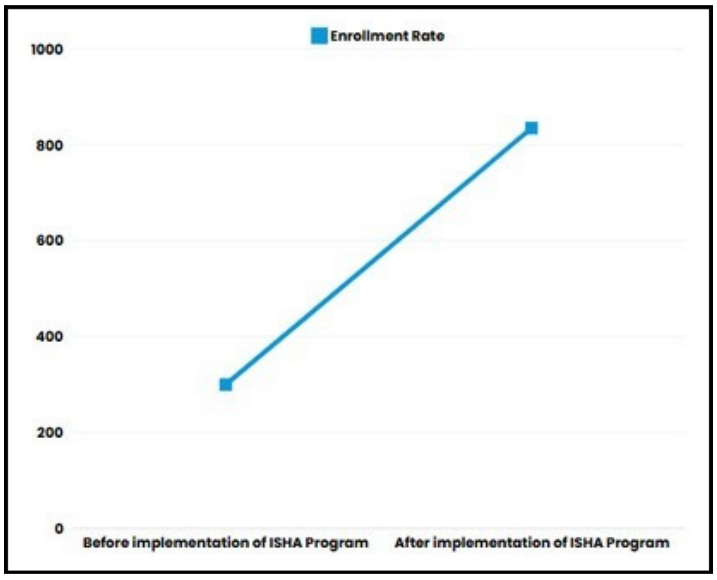

School Enrollment Rate

As a financial aid, 138 students awarded with scholarships in the year 2023-24. This initiative is a key component of the foundation's Educational Development Program, which aims to support students from underprivileged sections of the society for upliftment . By continuing to provide these scholarships annually, Ramky Foundation reaffirms its commitment to empowering youth through education to instill a sense of confidence that success can be attained despite financial challenges.

Under the ISHA project, greater emphasis has been laid on calibrating students' language proficiency through free spoken English classes. These sessions aimed to improve the students' communication skills and boost their confidence in speaking English. The training was comprehensive, covering not only grammar and vocabulary but also pragmatic conversational skills, which helped the students to come out of the inhibitions of speaking in a new language. As a result of their dedication and hard work, 470 students successfully obtained certification from the British Council, a prestigious recognition of their newly acquired language abilities. This achievement has a profound impact on the students, empowering them to speak English fluently and confidently, both in academic and social sphere.

In addition to language training, the ISHA project has made strides in integrating technology into education by establishing three fully equipped computer labs—two in Andhra Pradesh and one in Telangana. These labs provide students with hands-on experience in computer usage, digital literacy, and coding, essential skills for the modern world. To ensure the effective usage of these labs, teachers received specialized training to equip them with the necessary technical expertise and pedagogical methods. This training has enabled educators to guide students in harnessing the power of technology.

Furthermore, schools have been made aware of the importance of incorporating daily computer classes into their curriculum. The schools have not only embraced this but have also actively integrated it into their daily schedules, ensuring that every students have access to digital education regularly. These initiatives under the ISHA project have fostered a more holistic learning environment, equipping students with both language and technical skills that will serve them well in their future academic and professional pursuits.

Mid-day meal programs

In the Zilla Parishad High Schools of the villages of Thadi, Thanam, and Odacheepurupalli in Andhra Pradesh, Ramky Foundation donated kitchen appliances such as essential cooking utensils, grinders, mixers and other kitchen equipment. Through this support, not only is the preparation of mid-day meals facilitated, but also the health and the cognitive development of students is taken care of, thus creating a better learning environment. This program has benefitted more than 400 students.

Tribal Adult Literacy Program

Ramky Foundation's Adult Literacy Program started almost two years back in 2022. It aims to overcome the illiteracy roadblock by providing quality literacy programs to disadvantaged communities, particularly women in the tribal areas of Katkaripada (Taloja Majkur) and Bahrdawadi (Pen Block) in Maharashtra. To date, 44 women from tribal communities have gained literacy skills so far, with 20 joining in 2023-24.

This newfound ability has empowered them to open their own bank accounts, replacing their previous thumbprints with signatures for transactions. Beyond financial independence, the program has heightened their awareness of education's significance.

The women now diligently monitor their children's academic progress, aspiring to provide them with higher education opportunities. They also actively support their friends and neighbors, encouraging them to learn to read and write. This initiative has enhanced the individual lives beside strengthening community bonds through shared knowledge and support.

A Home for the Needy - Kanakamma Avva Asara

Ramky Foundation has established a girl's hostel "Kanakamma Avva Asara " in August 2010 at Narasaraopet in Palanadu district. The hostel was set up with the main focus to support the higher education of orphan, semi-orphan and poor girl students. The hostel provides boarding facility, food, health care, and coaching. The hostel has also extended services such as career counseling and other financial assistance required during the course of the girls' stay in the hostel.

The Foundation interacts with respective college management to review the academic performance of the students and other behavioral aspects. 28 girls from Palanadu, Guntur and Prakasam districts have stayed at the hostel this year.

A total of around 350 orphan and semi orphan girl students have been benefitted from the hostel since its inception in 2010 and some of them got employment opportunities in various companies /organizations through campus placements.

Health

The Foundation has spearheaded impactful healthcare initiatives aimed at improving the well-being of communities cutting across sections. These include the establishment of RO water plants ensuring access to clean and safe potable water for underserved populations, organizing medical camps which provide access to essential healthcare services to remote and marginalized communities and also addressing primary health needs and promoting preventive care.

Additionally, the Foundation's commitment extends to supporting elderly members of society through the provision of dignified living spaces in old age homes. Mobile health vans further extend healthcare access by reaching hard terrains delivering medical aid and health education directly to those in need. The awareness camps play a crucial role in educating communities about health issues, hygiene practices, and disease prevention, empowering individuals to lead healthier lives.

Through these multifaceted initiatives, Ramky Foundation continues to make a meaningful differenceinenhancinghealthcare access and promoting well-being among vulnerable populations.

94,219

Nurturing a Healthier and More Resilient Society

18,600 people given access to clean drinking water by setting up RO water plants

Transforming Lives of the Differently Abled

The distribution of prosthetic hands was a transformative endeavor that was undertaken at Mangalagiri, Guntur, which significantly impacted the lives of 2000 recipients. These prosthetics not only restore physical functionality but also restore dignity, instill confidence and independence to individuals who have lost limbs due to accidents, illness, or congenital conditions.

Organizations and initiatives dedicated to this cause ensure that prosthetic hands are custom-fitted and tailored to meet the specific needs of each recipient. By enabling them to perform everyday tasks and engage in activities they may have thought impossible, the distribution of prosthetic hands promotes inclusivity and enhances quality of life. This effort represents a compassionate response to the challenges faced by amputees, offering them a chance to regain mobility and pursue their aspirations with renewed confidence.

Free Plastic Surgeries for the Poor & Needy

Free plastic surgeries are a life-changing intervention for the poor and needy born with deformities or those who got them due to accidents. These surgeries got performed at free-of-cost by Ramky Foundation. They not only correct the physical deformity but also improve the patient's ability to eat, speak, and breathe properly. Beyond the physical benefits, these surgeries restore dignity and self-esteem of the beneficiaries and their families, who may face social stigma and ostracization due to their condition. By offering these surgeries free of cost, the foundation has ensured that financial constraints do not prevent children from receiving essential medical care, thus transforming their lives and giving them a brighter future.

Awareness Programs

The Foundation is dedicated to promote various awareness programs aimed at improving community health and well-being. These initiatives encompasses with wide array of topics such as road safety awareness to reduce accidents and ensure safe travel, breastfeeding awareness to safe maternal and infant well being, immunization and vaccination drives to prevent diseases, and hygiene and sanitation practices for maintaining cleanliness and preventing illnesses.

Additional focus is also on mental health awareness, psychological support, , family planning education for reproductive health choices, and promoting normal deliveries for maternal health. These efforts by Ramky Foundation are pivotal in empowering communities with knowledge and resources for healthier and safer lives.

Mobile Health Services

A dedicated Mobile Health Van has been operating daily for 3 to 4 hours in Hyderabad, Telangana, providing essential healthcare to approximately 70 individuals each day. Services offered include doctor consultations, basic health checkups, and necessary referrals for further medical attention.

This initiative aims to bring healthcare closer to underserved communities proximate to the door steps, ensuring timely access to medical assistance. Looking ahead, Ramky Foundation plans to expand its mobile health services by introducing two additional vans in Tamil Nadu and Maharashtra, further expanding their reach and impact in improving health outcomes across these regions.

On 1st April 2023 while our Mobile Health Van was on rounds at Malkaram village, a teacher contacted our team for emergency medical assistance for a 4-year child named Mohinuddin. Mohinuddin had collapsed while playing at Anganwadi School and was unresponsive.

The teacher panicked and brought him to Ramky Foundation's Mobile Health Van. The Medical officer on-duty, Dr. Eshwar checked and confirmed that the child was not breathing and had no pulse. After assessing the patient, Dr Eshwar immediately performed (Cardio Pulmonary Resuscitation) CPR and administered oxygen available in the van. This intervention helped stabilize Mohinuddin's condition and after an intense 15-minute effort, the child regained his consciousness. On the doctor's recommendation, little Mohinuddin was shifted to the nearby primary healthcare center for further monitoring and evaluation.

A situation like this further promotes the importance of operating Mobile Health Unit services for communities that cannot access and are devoid of basic healthcare. Ramky Foundation's MHU played a pivotal role in saving this 4-year old's life. Mohinuddin's family, his school teachers and his community conveyed their deepest gratitude to Ramky's Mobile health's services team.

Skill Development

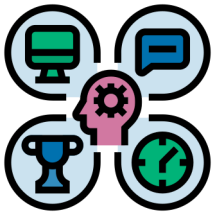

Ramky Foundation is committed to enhancing livelihoods and empowering communities through comprehensive skill development trainings. These programs are designed to equip individuals with the necessary knowledge and practical skills to augment their employability and entrepreneurial capabilities. The trainings cover a wide range of sectors including IT Skills, telecom, healthcare, and hospitality etc. tailored to local needs and market demands.

Participants receive hands-on training, theoretical knowledge, and guidance on soft skills such as communication and teamwork. The foundation's approach not only focuses on skill acquisition but also on fostering self-reliance and sustainable livelihoods. By empowering individuals through skill development, the Foundation plays a crucial role in contributing to economic growth andsocial upliftment in the communities it serves.

800

Beneficiaries in 2023-24

Equipping Youth to Become the Nation's Future Architects

225 unemployed youth given Web Developer, CRM and Digital Marketing trainings as per latest industry trends

SSC GD & RPF Coaching

Ramky Foundation has offered intensive, free residential coaching for aspirants of the Staff Selection Commission (SSC) General Duty (GD) & Railway Protection Force (RPF) exams in Andhra Pradesh & Telangana. The total applications received were 1701 in Andhra Pradesh and 3920 in Telangana. The eligibility test which was conducted in November,2023 saw a massive turnout of over 4500 candidates. The test was conducted in 7 centers. Over 500 selected candidates received free coaching out of which 80% candidates qualified in the written exam. The physical test and final assessment are to be conducted in 2024-25.

Recruitment Drive for ITI Students

Ramky Foundation organized a recruitment drive aimed at addressing the unemployment challenges faced by youth in Andhra Pradesh. The event took place at the Government ITI Visakhapatnam campus, specifically targeting final year students from the institute. With an increasing number of youth graduating every year and a shortage of job opportunities proportionate to the candidates availability, the drive sought to bridge this gap by offering positions in Coastal Waste Management (CWMP) and Common Effluent Treatment Plant (CETP) projects. These projects have openings in the electrical and mechanical departments, and candidates were evaluated through interviews conducted by Ramky Foundation personnel and 15 candidates were placed in various jobs.

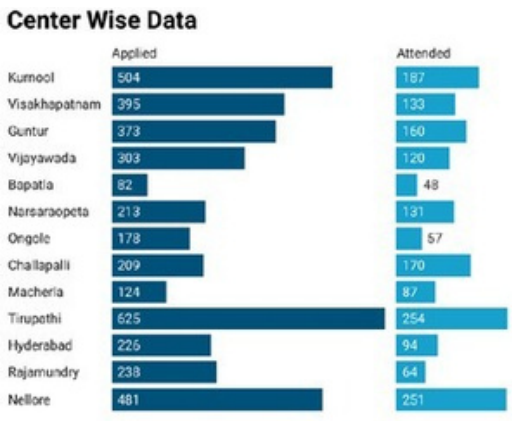

Police Training Program

Ramky Foundation recently organized a free Police Recruitment Training Program across 13 locations in Andhra Pradesh and Telangana, and received 4100 applicants from the aspirants. Candidates were selected based on merit, with a three-level cutoff system ensuring those scoring above 75 were chosen. Out of the total applicants, 283 meritorious candidates were selected for offline coaching, while 666 were enrolled in the online program. On completion of the training and recruitment process, 285 Candidates got selected as Police Constables and 52 got selected as Sub Inspector and 35 candidates also got selected in the SSC-GD exam.

This initiative aims to prepare aspiring individuals for careers in law enforcement, providing them with comprehensive training and support to excel in their future roles.

Rural Development

The activities of Ramky Foundation are deeply rooted in the Gandhian notion of rural development. As a corollary to this, the activities for developing community infrastructure and quality of life. These efforts include the construction of community halls, renovating ration shops for better service delivery, installing street lights to improve safety and accessibility, and developing public parks for recreational purposes.

Additionally, the foundation is actively engaged in constructing bus shelters to facilitate transportation and promoting rural art forms to preserve cultural heritage and provide livelihood opportunities. These initiatives are pivotal in fostering sustainable development and improving socio-economic conditions in rural areas, empowering communities and enriching their overall well-being. Ramky Foundation's commitment to these projects underscoresits dedicationfor the upliftment of rural communities and fostering inclusive growth.

50,421

Uplifting and
Transforming Rural Communities

Community parks developed benefitting
5,300 people

Community Parks for Recreation

The establishment of community parks in Guntur and Katur, Andhra Pradesh, has significantly enriched the lives of over 5,300 rural residents by providing a space for recreation and leisure. These parks feature dedicated children's play areas, offering safe and engaging environments for youngsters to play and socialize.

Beyond playgrounds, the parks also include green spaces, walking paths, and seating areas, fostering a sense of community and well-being among residents. The initiative not only promotes physical activity but also enhances mental health and social interaction, ultimately contributing to the overall quality of life in these rural areas.

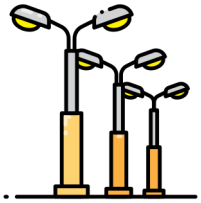

Distribution of Street Lights

The distribution of 400 street lights in Udaipur, Rajasthan, has brought significant improvement in the lives of 10,000 residents in the region. These street lights have illuminated many areas which were gloomy with dark, enhancing safety and security for pedestrians and commuters alike. The initiative has not only improved visibility during nighttime but has also contributed to a sense of community well-being by creating a safer environment for everyone. This effort underscores the commitment to infrastructure development and public safety, positively impacting the daily lives of the local population in Udaipur.

Construction of Bus Shelter

The construction of a bus shelter in Vishakhapatnam has greatly benefited approximately 1500 commuters by providing them with a comfortable and safe waiting area for public transportation. This initiative has improved commuting experiences, particularly during bad weather, and has enhanced the overall accessibility and convenience of public transport services in the area. The bus shelter not only serves as a practical infrastructure improvement but also underscores a commitment to enhancing urban mobility and ensuring the well-being of local residents in Vishakhapatnam.

Construction of Cement Concrete Roads

The construction of Cement Concrete roads (CC roads) in Jawaharnagar, Cheeryal, Dammaiguda 5th, 6th, and 9th wards and Nagaram has significantly transformed the village infrastructure. These new roads have not only enhanced connectivity but also improved accessibility to essential services such as healthcare, education, and markets for approximately 30,700 residents.

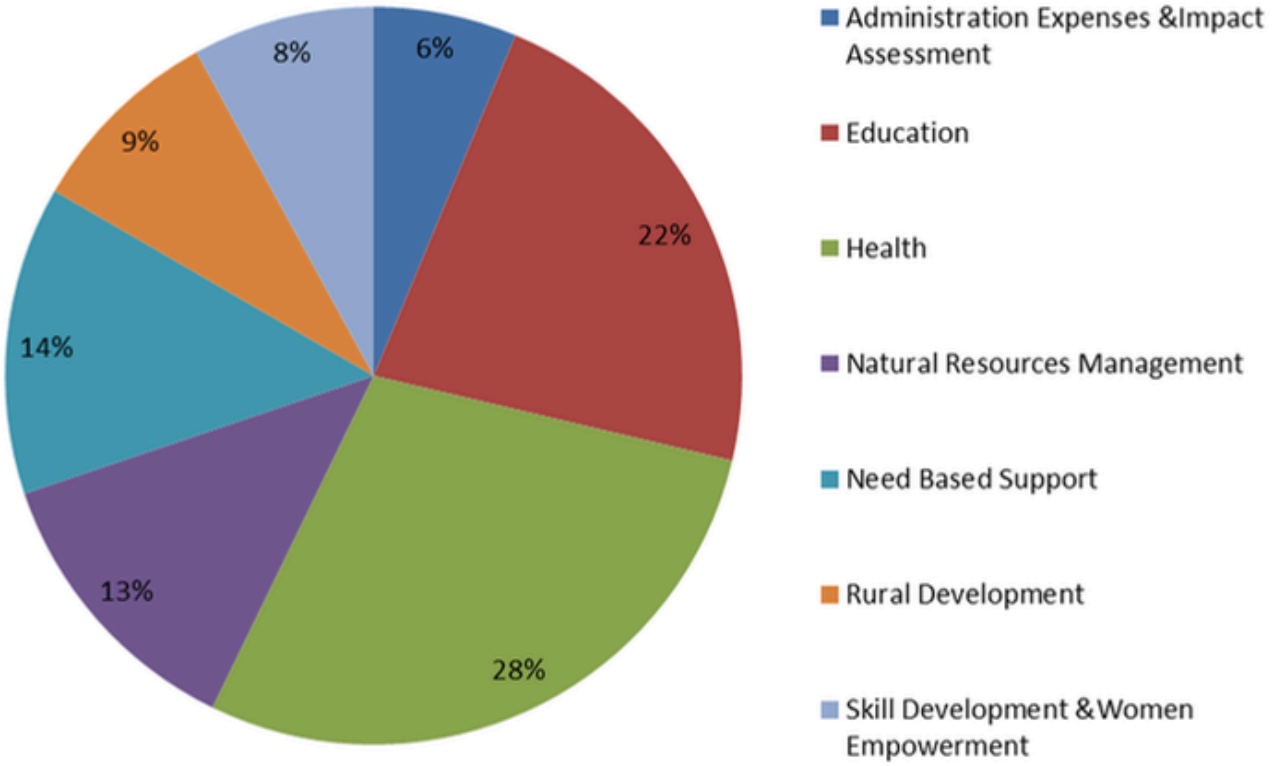

The durable CC roads have reduced travel time, minimized dust pollution, and facilitated smoother transportation of goods and services, thereby uplifting the overall quality of life in the community. This infrastructure development project stands as a testament to progress and development, fostering economic growth and social cohesion in the region.

TESTIMONIALS

Jayshree Kiran Patil
Siddhi Karavle, Maharastra

“I joined the tailoring course offered by Ramky Foundation as I had no knowledge about stitching. After completion of my tailoring course, I am now self-employed and I started taking some orders. I also stitch clothes of my community women. I’m very happy because I have observed that my little contribution is helping my family run the house smoothly.
I can fulfill my children’s needs immediately. Earlier my income was nothing but now I earn more thanRs.2000/- every month. This is certainly increasing my confidenceand I believe that I’ll earn more money in the future. Thankyou Ramky Foundation!”

Potturi Ramababu,
Andra Pradesh

As i am a differently abled person "Before receiving support from the Tribal Development Fund program, I struggled to find work. The grant of 10,000 INR allowed me to buy buffalos and start a dairy business, which has given me a steady income and expanded over time. This opportunity not only provided financial autonomy but also boosted my confidence and pride. I'm grateful for the chance to support myself and contribute to my community."

Purra Potha Raju,
Andra Pradesh

"Through the Tribal Development Project, I received mango plants and training in organic farming. By combining crop cultivation with poultry and goat farming, I've created a sustainable and profitable system. Using natural methods, my farm produces high-quality fruits, vegetables, and livestock products. This integrated approach has significantly improved my income and farm resilience."

STORIES THAT INSPIRE

P. Gangya Nayak, a farmer from Peddamandadi village, has emerged as a shining example of innovation and success in agriculture, thanks to his collaboration with field experts from Ramky Foundation. His journey is a testament to how creativity and strategic thinking can transform traditional farming and conventional practices into profitable ventures.

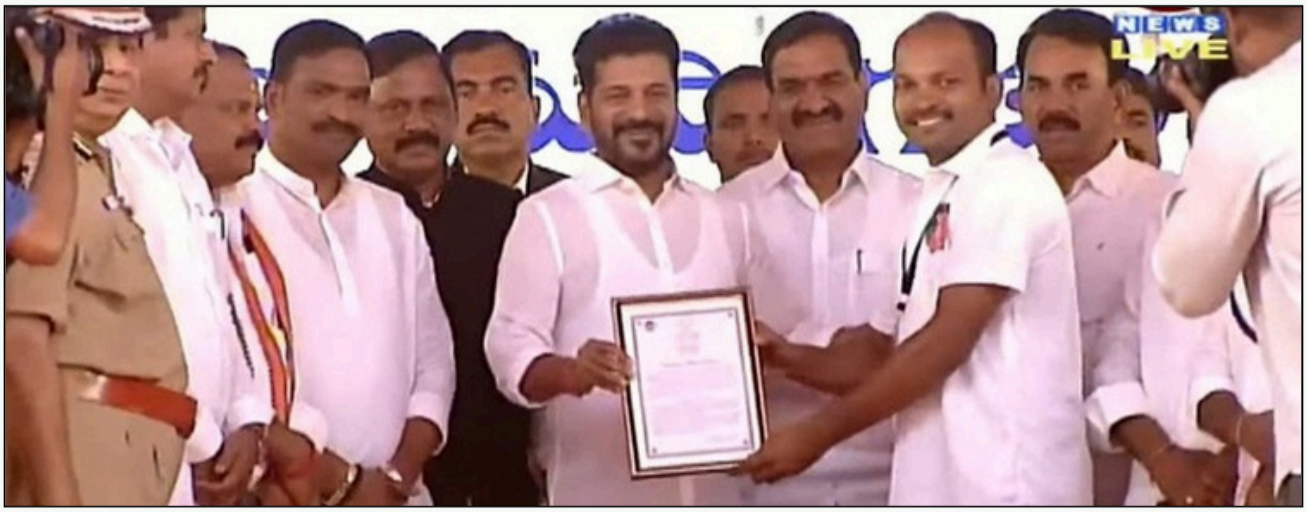

In the scorching summers, when mango trees typically dominate the landscape, Nayak saw potential in the unused spaces around these trees. Working closely with experts, he devised a pioneering method of cultivating vegetables in the basins surrounding the mango trees. This innovative approach not only made use of available land but also complemented the mango farming cycle.

By integrating vegetable cultivation with mango orchards, Nayak discovered a sustainable way to boost his income. The vegetables grown in these basins thrived due to the natural shade and moisture provided by the mango trees, requiring less water and care compared to traditional farming methods. This synergy not only conserved resources but also maximized land productivity throughout the year.

The results were remarkable. Nayak began earning between ₹2000 to ₹3000 per week from selling these vegetables in local markets. This additional income significantly improved his livelihood and empowered him to reinvest in his farm, further enhancing productivity and sustainability.

Nayak's success story highlights the importance of adaptive farming practices and collaborative efforts with experts. His path breaking initiative has improved the economic resilience besides setting a new precedent for other farmers in the region to explore innovative farming techniques tailored to their local conditions.

STORIES THAT INSPIRE

Mr. Bhanu Prakash's journey highlights the power of determination and support in overcoming financial hurdles. Coming from a family with limited means, his father, an electrician, and his mother, a homemaker, struggled to meet their needs. His younger brother ran a small business, but higher education and private institute enrollment in Hyderabad remained out of reach for Mr. Bhanu.

Despite these challenges, Mr. Bhanu was determined to join the police force. He dedicated himself to the rigorous training required for the police constable exams. Ramky Foundation (RF) provided essential academic guidance and logistics support, enabled him to focus on his goal.

After three rounds of exams over 18 months, Mr. Bhanu narrowly missed the cutoff for the sub-inspector exam by one mark. This setback fueled his determination, and he approached the constable exam with renewed vigor. His perseverance paid off as he emerged as the first ranker in the state!

Mr. Bhanu's story underscores the significance of support systems like Ramky Foundation in helping individuals achieve their dreams despite challenging circumstances. His success serves as a beacon light for others, proving that with determination and support, any obstacle can be surpassed.

STORIES THAT INSPIRE

For seven long years, M. Paandu Nayak and his family, hailing from Kasim Nagar village, endured severe water scarcity that rendered their land barren and unproductive. This dire situation deprived them of their primary source of income and threatened their livelihoods. Despite their challenges, the Nayaks persevered, hoping for a breakthrough that would bring their land back to life.

The turning point came with the collaborative efforts of NABARD and Ramky Foundation. Recognizing the potential of the Nayak family's land and their determination to overcome adversity, these organizations provided crucial support and resources. With innovative solutions and sustainable water management techniques, they helped the Nayaks reclaim their land for cultivation.

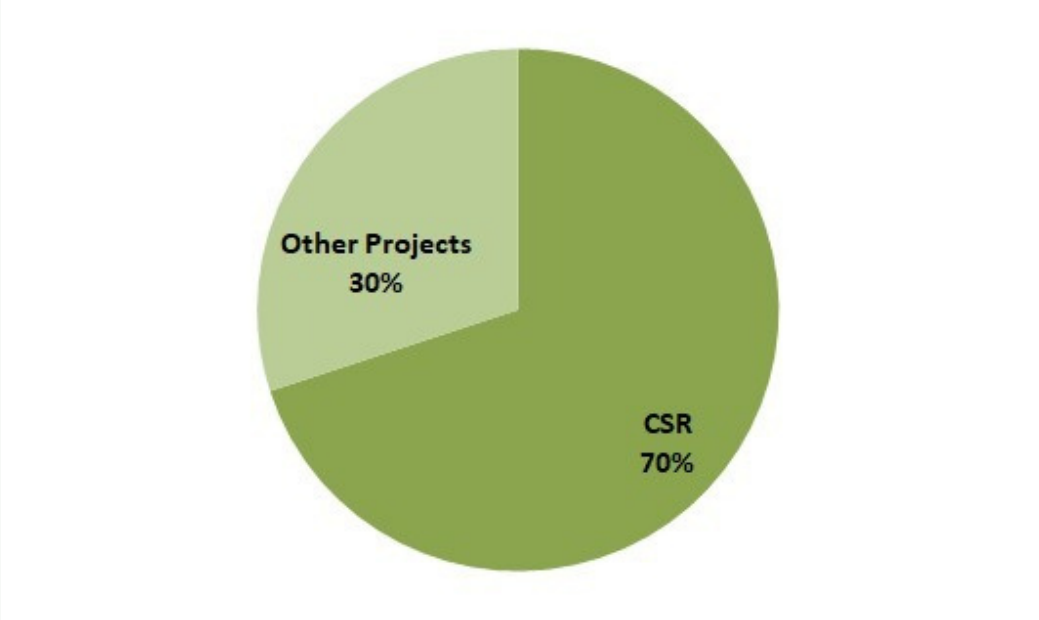

With renewed access to water and expert guidance, the Nayak family embarked on cultivating their land once again. They implemented modern farming practices and diversified their crops to maximize yields and income potential. This transformation not only restored their means of livelihood but also empowered them to thrive.

Today, the Nayak family earns up to ₹50,000 every cropping season from their revitalized farm. This income has not only lifted them out of poverty but has also enabled them to improve their standard of living, invest in their children's education, and contribute to their community's prosperity.

By overcoming adversity and embracing innovation, the Nayak family has secured their future and stood as ray of hope and inspiration for others encountering similar challenges in rural India.
